Nature's Creation® Dried Molasses encourages beneficial soil microorganism populations with its high carbon and sugar content. **Nature's Creation® Dried Molasses** is made with Blackstrap molasses from freshly harvested sugar cane. The molasses is warmed only enough to improve its viscosity and sprayed on a natural base of soybean hulls crushed by powerful rollers to an easily spreadable consistency. The result is a clean and easy to spread granular material with a sweet pleasant aroma.

When used as directed, **Nature's Creation® Dried Molasses** will not harm beneficial insects, soil organisms, aquatic species or wildlife. Wash hands after use and store in a cool dry place away from children and pets. Not for human consumption.

Turf and Lawns Maintenance: For healthy turf under an existing organic program apply **Nature's Creation® Dried Molasses** at the rate of 10 lbs. per 1,000 sq. ft. in Spring, Mid-Summer, and Fall. Water after application. **Newly Seeded Lawns:** Apply 20 lbs. **Nature's Creation® Dried Molasses** per 1,000 sq. ft. and lightly mix into soil the day seed is applied. Follow watering instructions for the seed. Reapply in 90 days at 10 lbs. per 1,000 sq. ft.

New Sod: Before laying sod apply 15 lbs. **Nature's Creation® Dried Molasses** per 1,000 sq. ft. on bare soil. After sod is placed

apply an additional 20 lbs. per 1,000 sq. ft. and follow recommended watering schedule for sod. Reapply after 60 days.

Annual and Perennial Flowers: Broadcast 3 lbs. **Nature's Creation® Dried Molasses** per 100 sq. ft. of bed. For best results mix into the soil. Reapply after 90 days. Apply to perennials again after blooming stops.

Roses: Apply 5 lbs. **Nature's Creation® Dried Molasses** per 100 sq. ft. of bed when first growth is established or 1/2 cup per plant. Apply every 90 days until early Fall.

Vegetable Gardens: Top dress area with **Nature's Creation® Dried Molasses** at seeding or transplanting or 1 Tbsp. per plant. Reapply every 90 days. Lightly rake to mix into soil surface.

Shrubs and Trees: For established shrubs spread 6 lbs. **Nature's Creation® Dried Molasses** per 100 sq. ft. of bed or 1 lb. per plant in Spring and Fall. Mix into top inch of soil.

Transplanting Shrubs or Trees: Blend 1/2 cup **Nature's Creation® Dried Molasses** per foot of plant height into bottom of hole. Mix 1/2 cup per foot of plant height into backfill soil.

Established Trees: Broadcast 1 lb. **Nature's Creation® Dried Molasses** per inch of trunk diameter every 90 days.
