This product is a ready-to-use insecticide which provides effective pest control against crawling insects. **Nature's Creation® Diatomaceous Earth Crawling Insect Control** is a mechanical insect killer. Insects cannot become immune to its action. Insects come in contact or ingest this powder and die within 48 hours. This product is for use in and around residential, commercial and agricultural buildings, structures and their immediate surroundings, in and around food/feed handling establishments, in and around livestock and poultry houses and may be applied over the top of animals, on crops, and stored grain.

OTHER USES (INDOOR AND OUTDOOR APPLICATIONS)

Nature's Creation® Diatomaceous Earth Crawling Insect Control is intended for application with a hand duster, power duster or as a slurry for application to areas where insects are found.

Indoor Use: Cockroaches, Ants, Earwigs, Millipedes and Centipedes, Crickets and Silverfish. Lightly coat a thin layer of **Nature's Creation® Diatomaceous Earth Crawling Insect Control** in areas where these pests are found and may hide including cracks and crevices, behind and beneath refrigerators, cabinets, stoves, garbage cans and in and around sewer pipes and drains, window frames and in attics and basements. Dust insects directly if possible. Repeat treatment regularly.

Fleas: Thoroughly treat floor and bedding in and around pets' sleeping quarters. Treat surrounding cracks and crevices, baseboards, carpeting and wherever fleas are suspected.

Carpet Beetles: Dust along baseboards, carpet edges, under carpeting, furniture, in closets and shelving where these insects are seen or suspected.

Bedbugs: Dismantle bed. Use **Nature's Creation® Diatomaceous Earth Crawling Insect Control** in joints, crevices and where rungs are inserted. See that all interior areas are dusted. Dust mattresses especially folds and edges. All cracks and crevices in the bedroom should be treated.

Outdoor Use: **Nature's Creation® Diatomaceous Earth Crawling Insect Control** is intended for application with a hand duster, power duster or a slurry application where insects are found. Cockroaches, Earwigs, Grasshoppers, Ants, Crickets and other insects: Lightly coat a thin layer of **Nature's Creation® Diatomaceous Earth Crawling Insect Control** in areas where these insects are found such as patios, outdoor sills, window and door frames. Apply around foundations, along ant trails and around sewer pipes and drains. Repeat treatment as necessary.
