**Nature's Creation® TOTAL Weed & Grass Control 20% Vinegar** is a quick-acting, non-selective contact herbicide containing an organic acid for which the residues degrade promptly in the soil. Foliar contact results in rapid desiccation and control of annual weeds and grasses, and top growth reduction of herbaceous perennial weeds and grasses.

**Nature's Creation® Total Weed & Grass Control** breaks down a plant's cell membranes causing the plant to rapidly lose moisture. When the foliage dies the plant cannot produce nutrition through photosynthesis and will die. Some tough weeds, especially deep rooted perennial grasses often need several applications to get complete control. Monitor regrowth so that new foliage does not become re-established or you will have to start over again.

**Nature's Creation® Total Weed & Grass Control** does not pollute the soil. After application it quickly breaks down into carbon dioxide and water. Because it is non-selective it requires careful spraying but poses no threat through run off or translocation

once it is dry. **Nature's Creation® Total Weed & Grass Control** is the ideal solution for annual weed problems just about anywhere. Why expose future generations or livestock to persistent toxic chemicals that may harm them in the future or bring deadly toxins into the food chain. **Nature's Creation® Total Weed & Grass Control** can be used around most food crops including vegetables, herbs and grains.

#### TYPICAL WEEDS CONTROLLED

**ANNUAL BROADLEAF WEEDS:** Black medic, Chickweed, Black Nightshade, Cinquefoil (rough), Common groundsel, Hairy nightshade, Lambsquarters, Mustard spp., Oxalis spp., Pigweed spp., Ragweed spp., Shepherdspurse, Smartweed (Ladysthumb), Velvetleaf. **PERENNIAL BROADLEAF WEEDS:** Amaranth, spp, Cinquefoil (silvery), Dandelion, Ground ivy, Plantain spp., Toadflax, Tufted vetch, Wild carrot, Moss. **ANNUAL GRASSES:** Crabgrass, Foxtail spp., Italian ryegrass, Poa annua. **PERENNIAL GRASSES:** Quackgrass, Witchgrass, Bluegrass.
