**Why Nature's Creation®?**

The last century brought new chemical garden products that produced faster, more dramatic results than natural substances in use for centuries. After a couple decades scientists found that many of these "miracle" chemicals did more harm than good. Chemical fertilizers caused imbalance in soil ecology and polluted lakes and rivers. Insects and weeds became resistant to new chemical insecticides and herbicides and beneficial plants and insects suffered.

Nature's Creation® provides the home gardener, landscaper, farmer, and nursery naturally environmentally safe products. Modern research technology has been utilized to develop traditional natural products and formulate new products using safe natural substances

Nature's Creation® offers a family of products with solutions to fertilization, soil improvement, insect control, disease control and weed control. We use proven natural ingredients including botanicals and natural materials. The homeowner, nurseryman, landscaper and farmer can achieve the most successful results using our safe, proven and enviromentaly friendly products.

**Nature's Creation® and Mycorrhizal Fungi**

Nature's Creation® provides the benefits of mycorrhizal fungi. Our plant foods, soils, and composts are fortified with the most effective strains of endo and ecto mycorrhizal fungi.

Mycorrhiza is the word used by scientists to describe the relationship between a fungi and the roots of a plant. Mycorrhiza literally means fungus root. They are arbuscular mycorrhizal fungi that multiply to form a symbiotic relationship with the roots of the host plant. The benefits include: increased nutrient uptake, drought tolerance and disease resistance. In the photo at right, the plant roots show the fine white filaments of mycorrhial fungi. They make the root system more effective and efficient and increase the surface volume of the root system.

# Nature's Creation® Lawn and Garden Foods

NC151 40 lb. Bag

*All Nature's Creation®  
Fertilizers are formulated  
without harsh chemicals to  
provide optimum results with  
no enviromental impact.*

## Nature's Creation® Turf Food with Mycorrhizal Fungi

- Poultry Based Formula
- No Biosolids
- Slow Release Nitrogen
- Contains Four Different Strains of Mycorrhizal Fungi
- Never Burns

NC153 40 lb.  
8-13958-02153-5

## *Kid and Pet Safe for Beautiful Lawns*

## Nature's Creation® Premium Lawn & Garden Fertilizer with Mycorrhizal Fungi

- 100% Natural Fertilizer
- Endo & Ecto Mycorrhizal Fungi
- Proven for All TurfgrasRich
- Rich in Triacontanol
- No Biosolids
- Multipurpose for Annuals, Perennials, Roses, Vegetables, Trees and Ornamentals

# Nature's Creation® Plant Foods

NC107 Qt.  
8-13958-02107-8

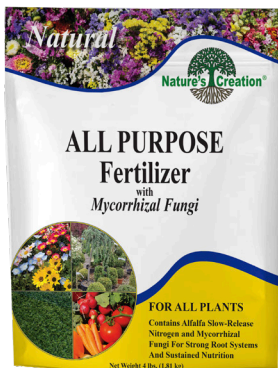

## Nature's Creation® Root Stimulator

- Increases Microbial Activity
- Improves Nutrient Uptake Efficiency
- Stimulates Early Root Development
- Reduces Transplant Shock
- Blend of Seaweed and Biostimulant
- Use With All Plantings

NC108 Gal.  
8-13958-02108-5

NC155 4 lb.  
8-13958-02155-9

## Nature's Creation® All Purpose Fertilizer with Mycorrhizal Fungi

- Alfalfa Slow-Release Nitrogen
- Endo & Ecto Mycorrhizal Fungi
- Easy to Spread, Will Not Burn

## Nature's Creation® Earthworm Castings with Mycorrhizal Fungi

- Natural Soil Amendment
- Encourages Beneficial Soil Microbial Activity
- Increases Soil Water Retention
- High Source of Beneficial Bacteria and Microbes

NC198 4 lb.

## Nature's Creation® Expanded Shale

- Natural Product to Improve Soil
- Retains Up to 35% Its Weight In Water
- Loosens Compacted Soil
- Aerates and Opens Heavy Clay Soils and Enhances Root Growth
- Will Not Burn
- Kid & Pet Friendly

## Nature's Creation® Dried Molasses

- Adds Organic Matter
- Increases Microbial Activity
- High Sugar Content
- Easy to Apply
- Will Not Burn
- Covers Up To 4,000 sq. ft.
- Kid & Pet Friendly

NC180 4 lb.

# Soils and Composts

## Nature's Creation® Organic Compost with Mycorrhizal Fungi

- Made From Composted Organic Matter
- 100% Organic Material
- Retains Soil Moisture
- Contains *Mycorrhizal Fungi*
- Use Instead of Canadian Sphagnum Peat
- Does Not Compact
- Restores Organic Matter and Humus
- Kid & Pet Friendly

NC605 1.5 Cu. Ft.  
8-13958-02605-9

## Nature's Creation® Organic Potting Soil with Mycorrhizal Fungi

- Compost, Coco Fiber, Pecan Mulch, Perlite, Mushroom Compost, Molasses, Native Recycled Trees and Shrubs
- W/ *Mycorrhizal Fungi Endo & Ecto*
- Peat Free - No Bio-Solids
- Readily Absorbs Water
- Ideal for All Indoor and Outdoor Plantings

NC613 0.5 Cu. Ft.  
8-13958-02613-4

NC615 1.5 Cu. Ft.  
8-13958-02615-8

## Nature's Creation® Organic Garden Soil with Mycorrhizal Fungi

- Black Humus Compost, Horticultural Sand, Composted Forest Products, Kelp Meal, Composted Rice Hulls and Poultry Manure
- W/ *Mycorrhizal Fungi Endo & Ecto*
- Peat Free
- Great For Vegetables & Flowers
- Ideal For Raised Beds

NC620 1.0 Cu. Ft.  
8-13958-02620-2

## Nature's Creation® Native Recycled Tree & Shrub Mulch with Mycorrhizal Fungi

- Native Recycled Trees & Shrubs, Compost, Molasses, Corn Meal, Green Sand
- W/ *Mycorrhizal Fungi Endo & Ecto*
- Improves Native Soils
- Holds Moisture

NC625 1.5 Cu. Ft.  
8-13958-02625-7

NC630 0.5 Cu. Ft.  
8-13958-02630-1

## Nature's Creation® Cactus & Succulent Mix with Mycorrhizal Fungi

- Coco Fiber, Recycled Trees & Shrubs, Perlite, Horticultural Sand, Compost & Kelp Meal
- W/ *Mycorrhizal Fungi Endo & Ecto*
- Provides Drainage & Air Circulation
- Maintains Ideal Moisture Level
- The Right Environment for All Cacti & Succulents

# Nature's Creation® Insect Controls

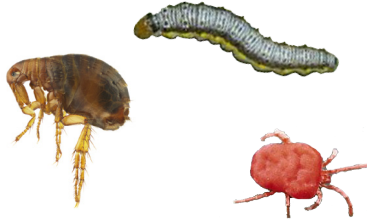

NC204 21,780 Sq. Ft.  
8-13958-02204-4

NC202 10,890 S. Ft.  
8-13958-02202-0

## Nature's Creation® Live Beneficial Nematodes

- Natural Biological Insect Control
- Controls Fire Ants, Cutworms, Flea Larvae, Sod Webworms, Weevils, White Grubs and Many More
- Harmless to Earthworms
- Easy to Apply

NC410 3/4 cu. ft.  
8-13958-02410-9

## Nature's Creation® CedarRepel Insect Repellent Red Cedar Granules

- Repels Mosquitos
- Natural Insect Repellent Chemical Free
- Pleasant Scent
- Easy to Apply
- Long Lasting
- Kid and Pet Safe

## Nature's Creation® CedarRepel Insect Repellent

- Repels Mosquitoes, Fleas, Chiggers, Ants, Scorpions & More
- Contains Cedarwood Oil
- Ready-to-Spray No Mixing
- No Toxic Residue
- Covers Up To 4,000 Sq. ft.
- Use on Patios, Lawns, Shrubs, Flowers and Vegetables
- Kid, Pet and Planet Friendly

NC412 32 Oz.  
8-13958-02412-3

## Nature's Creation® Fire Ant Killer Mound Drench

- All Natural Botanical Oils
- Kills Mounds With One Application
- One Gallon Makes Up To 21 Gal.
- Pleasant Smelling Solution
- Kills Fire Ants and Other Ants

NC305 Gal.  
8-13958-02305-8

## Nature's Creation® Diatomaceous Earth Crawling Insect Control

- Safe Crawling Insect Control
- Mechanical Action Avoids Resistance
- Safe For Food Crops
- Use Indoors Or Outdoors
- Non-burning
- Kills Roaches, Ants, Spiders, Fleas and More

NC361 12 Oz.  
8-13958-02361-4  
NC363 10 lb.

## Nature's Creation® Food Grade Diatomaceous Earth

- Mother Nature's Naturally Organic Material
- Purest Form of Diatomaceous Earth
- Naturally Occuring Silicon Dioxide
- Contains Numerous Trace Elements

# Nature's Creation® Herbicides

## Nature's Creation® TOTAL Weed & Grass Control 20% Vinegar

- For Home and Agriculture
- Fast Acting - Non-Selective
- For Organic Production
- EPA Registered
- 20% Vinegar
- Non-Polluting
- No Mixing

- NC504 Gal. 8-13958-02504-5
- NC506 2.5 Gal. 8-13958-02506-9
- NC507 55 Gal. 8-13958-02507-6

## Nature's Creation® PREVENT Corn Gluten Meal

NC551 50 Lb.  
8-13958-02551-9

## Nature's Creation® PREVENT Corn Gluten Spreadable

NC550 50 Lb.  
8-13958-02550-2

## ENVIRONMENTALLY SAFE WEED CONTROL

- All Natural Pre-Emergent Herbicide
- Inhibits Feeder Root Development
- Controls Crabgrass (Digitaria spp.), Dandelion (Taraxacum officinale) Annual Bluegrass (Poa Annua), Annual Ryegrass (Lolium spp.), Creeping Bentgrass (Agrostis palustris) Common Lambsquarter (Chenopodium album) Buckthorn Plantain (Plantago lanceolata), Curly Dock (Rumex crispus), Common Groundsel (Senecio vulgaris), Bristly Oxtongue (Helmithotheca echioides) Giant Foxtail (Setaria faberi), Quackgrass (Agropyron repens), Redroot Pigweed (Amaranthus retroflexus) Purslane (Portulaca oleracea), Fall Panicum (Panicum dichotomiflorum) Common Velvet Grass (Holcus lanatus), Barnyardgrass (Echinochloa crusgalli) Black Medic (Medicago lupulina), Yellow Foxtail (Setaria lutescens), Annual Sedge (Cyperus compressus) Yellow Woodsorrel (Oxalis corniculata)
- 9% Nitrogen for Greener Grass
- Non-Burning
- Covers Up To 4,000 Sq. Ft.

# Nature's Creation® Fungicides

NC288 30 Lb. 8-13958-02288-4  
NC286 4 lb. Bag 8-13958-02286-0

## Nature's Creation® Fungicide with Corn Meal Horticultural Grade

- Controls Brown Patch, Take All Patch, Black/Gray Patch and More
- For Turfgrasses, Annual, Perennials & More
- Easy to Spread

## Nature's Creation® Compost

Nature's Creation®  
**Organic Compost  
with Mycorrhizal Fungi**

- Made from, Native Recycled Trees and Shrubs
- 1005 Organic Material
- Does Not Compact
- Use Instead of Canadian Peat

NC615 1.5 cu. ft.  
8-13958-02605-9

### Nature's Creation® Organic Compost with *Mycorrhizal Fungi*

In Nature, nothing is wasted. Leaves and limbs fall and plants die each season. All of this material becomes food for soil microorganisms that cause it to decompose. This is humus. It is not soil but a rich brown to black material formed as plant material breaks down into natural organic matter. It allows water and air to penetrate the soil surface and helps the top soil layer hold moisture. This organic matter is full of living organisms that allow lawns and gardens to grow and thrive.

Nature's Creation® Organic Compost with *Mycorrhizal Fungi* is made from Native Recycled Trees and Shrubs. They are ground and manure is added to hasten the natural conversion to humus. Composting is an aerobic method (meaning it requires the presence of air) of decomposing organic matter. During this process, heat is generated sterilizing the blend. No chemicals or other materials are added.

Use Nature's Creation® Organic Compost with *Mycorrhizal Fungi* in fall and spring as a top dressing for the lawn, to enrich garden soil, to mulch around trees and shrubs, to loosen clay soils and improve moisture holding capacity of sandy soils. Nature's Creation® Organic Compost with *Mycorrhizal Fungi* is the perfect replacement for Canadian sphagnum peat.

**Ideal for All Lawns, Trees, Shrubs, Flowers,  
Vegetables and Perennials**

# Organic Lawn Care Program

**Nature's Creation® Organic Lawn Care Program** feeds turf-grasses and increases beneficial microbial activity in the soil producing a lush green and healthy lawn. **Mycorrhizal Fungi Endo/Ecto\*** in our fertilizers enhances the coverage and effectiveness of root systems. **Nature's Creation's** natural, pre-emergent herbicide **PREVENT** uses corn gluten to keep weed seeds from germinating.

8-13958-02613-4    8-13958-02615-8

## Nature's Creation® Organic Potting Soil with *Mycorrhizal Fungi*

At Nature's Creation® we built our potting soil formula from the ground up. We did not want to use peatmoss because it tends to clump and prevent water penetration without chemical wetting agents. We wanted to stay organic and natural. We have made a unique mixture of just the right proportions of Compost, Coco Fiber, Pecan Mulch, Perlite, Mushroom Compost, Molasses, Native Recycled Trees and Shrubs. To make it even better we added our Mycorrhizal Fungi blend of Endo and Ecto Mycorrhizal Fungi strains more efficient root systems. We use no chemicals or biosolids.

Nature's Creation® Organic Potting Soil with *Mycorrhizal Fungi* works with all plants from the most tender flowering plants to indoor tropicals and even potted trees and shrubs.

### Our formula:

Compost

Dried Molasses

Recycled Trees & Shrubs

Mushroom Compost

Coco Fiber

Perlite

Pecan Mulch
